STAFF REPORT**

City Council Meeting Date:
January 31, 2017

Council District 8

Zoning Commission Recommendation:
Approval by a vote of 8-0

Opposition: None submitted
Support: None submitted

Continued Yes X No ___
Case Manager Stephen Murray
Surplus Yes ___ No X
Council Initiated Yes ___ No X

Owner / Applicant: **Tony Cervantes and Marie Chairez**

Site Location: 2210 E. Vickery Boulevard Mapsco: 77M

Proposed Use: **Multifamily**

Request: From: "A-5" One-Family
To: "C" Medium Density Multifamily

Land Use Compatibility: Requested change **is compatible.**

Comprehensive Plan Consistency: Requested change **is not consistent (Significant Deviation).**

Background:

The proposed site is located on the corner of the US HWY 287 access road and Vickery Blvd. The applicant is proposing to change the zoning from "A-5" One-Family to "C" Medium Density Multifamily. The applicant would like to continue to refurbish the site for a Triplex.

The existing site appears to have two units on the bottom and one unit on the top. Code Compliance currently has a case due to being in a state of disrepair. The applicant is requesting "C", in order to bring the site into conformity with current zoning laws. A Certificate of Occupancy is required in order to operate any residential use 3 units or more. A review of parking, setbacks, and building code would be required to occupy the site.

The site was rezoned through the Council Initiated process in 2008 and went from "C" Medium Density Multifamily to "A-5" One-Family.

Discussion at the Zoning Commission hearing included confirmation with the applicant that the required parking lot must be paved and striped on the property and the applicant agreed. Following the Zoning Commission meeting, the Parker Essex Boaz NA expressed opposition to the case. They feel that the Council Initiated Rezoning has put the correct zoning in place and they would like it to remain.

The case was continued at the City Council meeting in order for the applicant to reach out to staff. The applicant has submitted a site plan as requested depicting landscape locations, parking areas, number of units, number of bedrooms, etc. If approved the motion would be for "PD/A-5" Planned Development for all uses in "A-5" One-Family plus three residential units; site plan included.

Development Impact Analysis:

1. Land Use Compatibility

The applicant is proposing a zoning change from "A-5" One-Family to "C" Medium Density Multifamily. Surrounding land uses are primarily single-family with the US Highway 287 access road to the west.

The proposed site was constructed in 1952 and currently has two units on the bottom floor with a third unit on the second floor. The site faces the access road and will provide a buffer to the single-family homes east of the site. The proposed zoning **is compatible** with surrounding land uses.

2. Comprehensive Plan Consistency

The 2016 Comprehensive Plan designates the subject property as Single-Family. The requested zoning change is not consistent with the following Comprehensive Plan policies:

- Encourage appropriate development and redevelopment within central city commercial districts and neighborhoods. (pg. 39)
- Protect residential neighborhoods from incompatible land uses, disinvestments, encroachment, speculation, demolition, neglect, and other negative forces. (pg. 39)

However, since the site is on the corner of a highway and arterial, a more intense land use designation should be considered for the next update.

Based on the lack of conformance with the future land use map and the policies stated above; the proposed zoning **is not consistent (Significant Deviation)** with the Comprehensive Plan.
