Subject: Funding Opportunity Announcement (FOA) No. R12SF80082 – WaterSMART:
Development of Feasibility Studies under the Title XVI Water Reclamation and Reuse
Program – Your Application Titled, “Central Fort Worth Reclaimed Water Delivery
System Feasibility Study”

Dear Mr. Talley:

Thank you for submitting an application for development of a feasibility study under the Title XVI Water Reclamation and Reuse Program. Reclamation conducted a review of applications for funding based on the evaluation criteria included in the FOA announced on December 8, 2011, and posted at www.grants.gov. The Bureau of Reclamation is pleased to inform you that your application was among those receiving the highest ratings and is now being considered for award of a financial assistance agreement. Reclamation anticipates awarding Federal funds in the amount of \$150,000 for your proposed feasibility study. Please note that Reclamation may adjust the award amount in order to ensure that the feasibility study remains in compliance with statutory requirements.

A financial assistance agreement will not be executed, nor funds awarded, until all statutory and regulatory requirements, including those described in Section V.C. of the FOA, have been met. Note that if the non-Federal cost-share for your feasibility study has not yet been secured, letters indicating commitments for non-Federal funding must be submitted to Reclamation prior to award of a financial assistance agreement.

Also, please be advised that your application has been ranked based on your description of the feasibility study you intend to develop. Changes to the description in your application may affect your study's ranking and eligibility for Federal funds under this FOA. Revisions to the scope of the feasibility study described in your application can be made only after Reclamation determines that revisions would be consistent with the selection process.

For additional information, including a list of the other feasibility studies identified for funding, please see the announcement of selected studies which is available at www.usbr.gov/WaterSMART. To receive information and announcements regarding upcoming activities under this program, please sign up for our email list by sending a blank email to join-titlexvi@listserver.usbr.gov.

Thank you for your interest and participation in the Title XVI Water Reclamation and Reuse Program. As a next step, a Financial Assistance Specialist based in one of Reclamation's regional or area offices will contact you to provide further information necessary to begin development of your financial assistance agreement. If you have questions concerning the next steps in awarding this agreement, please contact me at 303-445-2025, or the Title XVI Coordinator, Mr. Dean Marrone, at 303-445-3577.

Sincerely,

/s/

Michelle Maher
