Narrative Description

Sara Lovas' artwork for the Golden Triangle Library is an installation of multiple figures throughout the library. A bronze sculpture anchors the installation and features a stack of books being read by a small figure. The sculpture will be approximately 12.5" wide x 11.5" deep x 6.5" tall. From the stack of books emerges a shiny, silver-colored figure. Throughout the library are other shiny, cast aluminum figures on various adventures - exploring, climbing, jumping, running, crawling and more. These figures will be 13" - 14" tall with a bright frosted finish and will be placed inside and outside the library. Conceptually, this work addresses the joy, adventure, and new perspectives gained through reading and learning.
