Owner / Applicant: Eagle Mountain-Saginaw ISD

Site Location: 2900 – 3100 Blocks W. Bonds Ranch Rd
Mapsco: 18T

Proposed Use: Elementary School

Request: From: PD 424 Planned Development/Specific Use for mixed use and residential form based code; site plan required
To: "CF" Community Facilities

Land Use Compatibility: Requested change is compatible.

Comprehensive Plan Consistency: Requested change is consistent.

Staff Recommendation: Approval

Background:
The subject property is located south of Bonds Ranch Road. The applicant is requesting “CF” zoning for a future elementary school site. This area was part of the Chapel Hill rezoning ZC-18-201, the metes and bounds were not submitted and not approved as part of the original zoning case.

The PD was originally created in 2001 for mixed use residential and commercial tied to development standards for each district with a site plan requirement. Currently, only one phase on the north has been developed which was not form based but a standard single family residential subdivision with approximately 222, 40 ft. wide, single-family lots with rear entry access.

There is limited access through this area as development is just starting. With the Master Thoroughfare Plan requirement to construct Fleming Ranch and Eagle Mountain Parkway, new arterial connectors will help to alleviate possible traffic concerns. The development will occur in phases, with the first phases expected to the east on Saginaw Blvd. to connect to existing streets and infrastructure.

Development Impact Analysis:
1. Land Use Compatibility
   This proposed zoning change request to “CF” is for a future school site.
   Surrounding land uses are currently vacant, with a gas well to the west.
   The proposed zoning district is compatible with the surrounding land uses.

2. Comprehensive Plan Consistency add consistency for single family
   The 2019 Comprehensive Plan designates the subject property as Single Family. The requested zoning classification is consistent with the Future Land Use map and the below policies:
• Encourage development type and intensity appropriate to existing or planned street infrastructure by coordinating future land use map changes with the Master Thoroughfare Plan and adopted complete streets policy.

Based on conformance with the future land policies, the proposed zoning is consistent with the Comprehensive Plan.
