- This plat was prepared without the benefit of a commitment for title insurance. No research was performed for any easements other than that shown on the record plat of this property. Therefore, easements, agreements, and other documents may exist that affect the subject property that are not shown on this replat.
 - Bas of bearing: Texas State Plane Coordinate System, North Central Zone 4202, North American Datum of 1983, Adjustment Realization 2011.
 - Selling a portion of this addition by metes and bounds is a violation of City ordinance and state law and is subject to fines and withholding of utilities and building permits.
 - Parkway Improvements such as curb and gutter, pavement tie-in drive approaches, sidewalks and drainage inlets may be required at the building permit issuance by parkway permit.
 - The City of Fort Worth shall not be responsible for maintenance of private streets, drives, emergency access easements, public access easements, public pedestrian access easements, recreation area, open spaces and drainage facilities, and said owners agree to indemnify and save harmless the City of Fort Worth, Texas, from claims, damages, and losses arising out of or from performance of the obligation of said owners set forth in this paragraph. Sidewalks and street lights are required for all public and private streets and public access easements as per City of Fort Worth Standards.
 - Direct access to the FM 156/Blue Mound Road is restricted to those locations that have been reviewed and approved by TDDOT.
 - None of the subject land is located in a 100-year Flood Plain or in an identified "flood prone area," as defined pursuant to the Flood Disaster Protection Act of 1973, as amended, as reflected by Flood Insurance Rate Map Panel 48439C0065L. The property is located in Zone "X" (areas determined to be outside the 500-year floodplain).
 - Private P.R.V's will be required; water pressure exceeds 80 psi.

NOTES:

Water/ Wastewater Impact Fees

The City of Fort Worth has an ordinance implementing the assessment and collection of water and wastewater impact fees. The total amount assessed is established on the recordation date of this plat application, based upon schedule I of the current impact fee ordinance. The amount to be collected is determined under schedule II then in effect on the date a building permit is issued, or the connection date to the municipal water and/or wastewater system.

Utility Easements

Any public utility, including the City of Fort Worth shall have the right to move and keep moved all or part of any building, fence, tree, shrub, other growth or improvement which in any way endangers or interferes with the construction, maintenance, or efficiency of its respective systems on any easement shown on the plat; and they shall have the right at all times to ingress and egress upon said easements for the purpose of construction, reconstruction, inspection, patrolling, maintaining, and adding to or removing all or part of its respective systems without the necessity at any time of procuring the permission of anyone.

Transportation Impact Fees

The City of Fort Worth has an ordinance implementing the assessment and collection of transportation impact fees. The total amount assessed is established on the approval date of this plat application, based on Schedule I of the impact fee ordinance in effect as of the date of the plat. The amount to be collected is determined under Schedule 2 of the ordinance, and is due on the date a building permit is issued.

Building Permits

No Building Permits shall be issued for any in this subdivision until an appropriate CFA or other acceptable provisions are made for the construction of any applicable water, sewer, storm drain, street lights, sidewalks, or paving improvements; and approval is first obtained from the City of Fort Worth.

Private Common Areas and Facilities

The City of Fort Worth shall not be held responsible for the construction, maintenance or operation of any lots containing private common areas or facilities identified as such on this plat. Said areas shall include, but not be limited to: private streets, emergency access easements, and gates security entrances, recreation areas, landscape areas and open spaces; water and wastewater distribution.

Construction Prohibited Over Easements

No permanent buildings or structures shall be constructed over any existing or platted water, sanitary sewer, drainage, gas, cable, or other utility easement of any type.

Sidewalks

Sidewalks are required adjacent to both sides of all public and private streets, in conformance with the sidewalk policy per "City Development Design Standards".

Public Open Space Easement

No structure, object, or plant of any type may obstruct vision from a height of 24 inches to a height of eleven (11) feet above the top of the curb, including, but not limited to buildings, fences, walls, signs, trees, shrubs, cars, trucks, etc., in the public open space easement as shown on this plat.

Floodplain/Drainageway Maintenance

The existing creek, stream, river or drainage channel traversing along or across portions of this addition, will remain unobstructed at all times and will be maintained by the individual lot owners whose lots are traversed by, or adjacent to, the drainage ways. The City of Fort Worth will not be responsible for the maintenance, erosion control and/or operation of said drainage ways. Property owners shall keep the adjacent drainage ways traversing their property clean and free of debris, silt or other substances, which would result in unsanitary conditions, and the city shall have the right of entry for the purpose of inspecting the maintenance work by the property owners. The drainage ways are occasionally subject to stormwater overflow and/or bank erosion that cannot be defined. The City of Fort Worth shall not be liable for any damages resulting from the occurrence of those phenomena, nor the failure of any structure(s) within the drainage ways. The drainage way crossing each lot is contained within the floodplain easement line as shown on the plat.

Floodplain Restriction

No construction shall be allowed within the floodplain easement without the written approval of the director of transportation and public works. In order to secure approval, detailed engineering plans and/or studies for the improvements, satisfactory to the director, will be prepared and submitted by the party(ies) wishing to construct within the floodplain. Where construction is permitted, all finished floor elevations shall be a minimum of two feet above the floodplain base flood elevation resulting from ultimate development of the watershed.

Parkways

Parkways (The strip between the sidewalk and the curb) will be maintained by adjacent landowner.

Site Drainage Study

A site drainage study, showing conformance with the approved roadway drainage plan, may be required before any building permit will be issued on this site (a grading plan in some instances may be adequate.) If the site does not conform, then a drainage study may be required along with a CFA for any required drainage improvements and the current owner shall submit a letter to the Department of Transportation and Public Works stating awareness that a Site Drainage Study will be required before any permit is issued. The current owner will inform each buyer of the same.

Building Construction Distance Limitation to an Oil or Gas Well Bore

Pursuant to the Fort Worth City Code, no building(s) not necessary to the operation of an oil or gas well shall be constructed within the setbacks required by the current Gas Well Ordinance and adapted Fire Code from any existing or permitted oil or gas well bore. The distance shall be measured in a straight line from the well bore to the closest exterior point of the building, without regards to intervening structures or objects.
