- NOTES:
- The basis of bearings for this survey is the Texas State Plane Coordinate System, North Central Zone, 4202, based upon GPS measurements, according to the North Texas Cooperative VRS Network.
  - According to graphical plotting of the Flood Insurance Rate Map for Tarrant County, Texas, Incorporated Areas, Panel 190 of 495, Map Number 48439C0190 K, Map Effective Date: September 25, 2009, the subject property is located in Zone "X (unshaded)", defined as "Areas determined to be outside the 500-year floodplain". This statement does not reflect any type of flood study by this firm.
  - Owner and Developer release the City of Fort Worth for liability for the domestic water line and fire line beyond the basement wall of the existing jet building.
  - The purpose of this replat is to include a portion of Main Street between Third and Fourth Street into Lot 2R, Block 51 and Lot 1R, Block 52.

LAND USE TABLE	
Total Gross Acreage	1.3639 Acres
Right-of-Way Dedication	0.000 Acres
Net Acreage	1.3639 Acres
Number of Residential Lots	0
Number Non-Residential Lots	2
Non-Residential Acreage	1.3639 Acres
Private Park Acreage	0
Public Park Acreage	0

**WATER / WASTEWATER IMPACT FEES**  
The City of Fort Worth has an ordinance implementing the assessment and collection of water and wastewater impact fees. The total amount assessed is established on the filing date of this plat application, based upon Schedule I of the impact fee ordinance in effect as of the date of the plat. The amount to be collected is determined under Schedule II of said ordinance, and becomes effective on the date a building permit is issued, or on the connection date to the municipal water and/or wastewater system.

**PRIVATE COMMON AREAS AND FACILITIES**  
The City of Fort Worth shall not be held responsible for the construction, maintenance or operation of any lots containing private common areas or facilities identified as such on this plat. Solid areas shall include, but not be limited to: private streets, emergency access easements, and gated security entrances; recreation areas, landscaped areas and open spaces; water and wastewater distribution systems and treatment facilities; and recreation/clubhouse/exercise/buildings and facilities.

The land owners and subsequent owners of the lots and parcels in this subdivision, acting jointly and severally as a land owners association, shall be responsible for such construction, reconstruction, maintenance and operation of the subdivision's private common areas and facilities, and shall agree to indemnify and hold harmless the City of Fort Worth, Texas, from all claims, damages and losses arising out of, or resulting from the performance of the obligations of said owners association, as set forth herein.

**TRANSPORTATION IMPACT FEES**  
The City of Fort Worth has an ordinance implementing the assessment and collection of transportation impact fees. The total amount assessed is established on the approval date of this plat application, based upon Schedule 1 of the impact fee ordinance in effect as of the date of the plat. The amount to be collected is determined under Schedule 2 of said ordinance, and is due on the date a building permit is issued.

**SITE DRAINAGE STUDY**  
A site drainage study, showing conformance with the approved roadway drainage plan, may be required before any building permit will be issued on this site (a grading plan in some instances may be adequate.) If the site does not conform, then a drainage study may be required along with a CFA for any required drainage improvements and the current owner shall submit a letter to the Department of Transportation and Public Works stating awareness that a Site Drainage Study will be required before any permit is issued. The current owner will inform each buyer of the same.

**FLOODPLAIN RESTRICTION**  
No construction shall be allowed within the floodplain easement, without the written approval of the Director of Transportation and Public Works. In order to secure approval, detailed engineering plans and/or studies for the improvements, satisfactory to the Director, shall be prepared and submitted by the party(s) wishing to construct within the flood-plain. Where construction is permitted, all finished floor elevations shall be a minimum of two (2) feet above the 100-year flood elevation.

**BUILDING PERMITS**  
No building permits shall be issued for any lot in this Subdivision until an appropriate CFA or other acceptable provisions are made for the construction of any applicable water, sewer, storm drain, street lights, sidewalks, or paving improvements; and approval is first obtained from the City of Fort Worth.

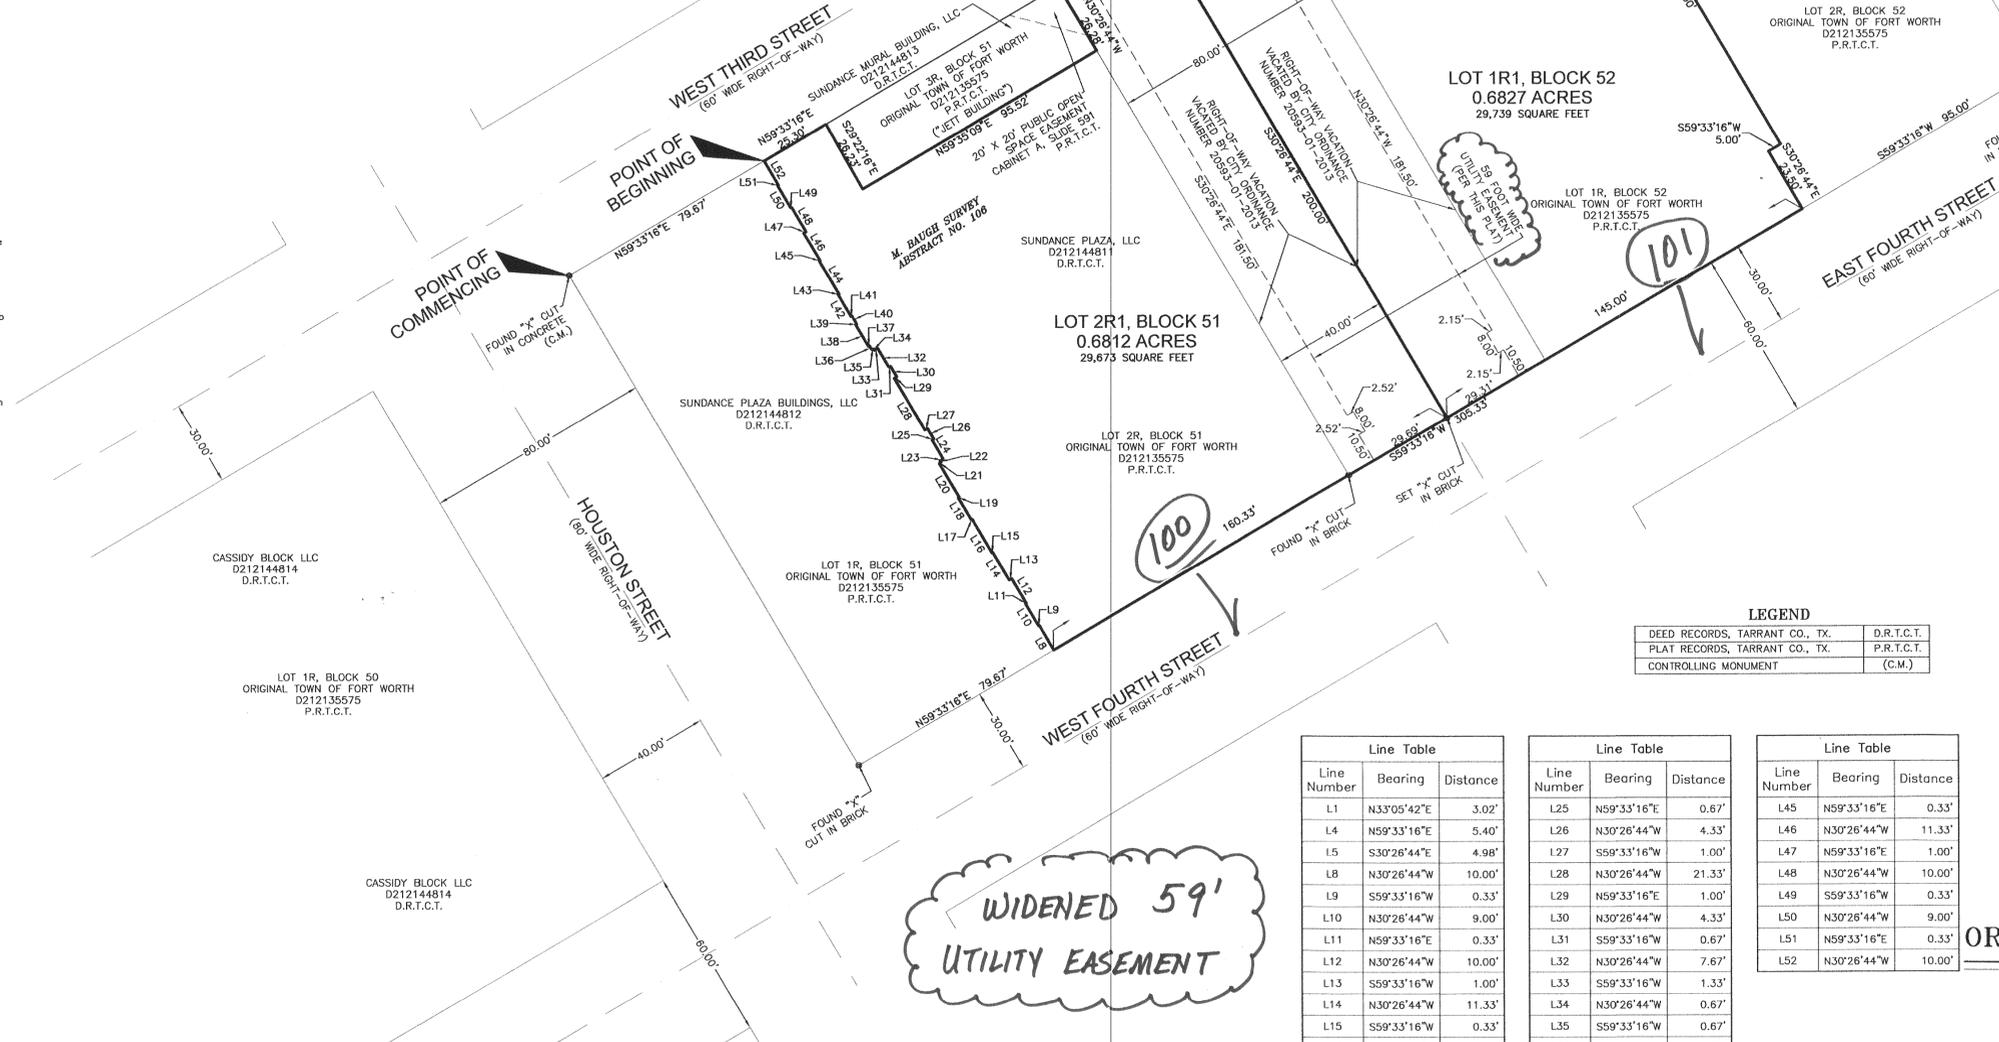

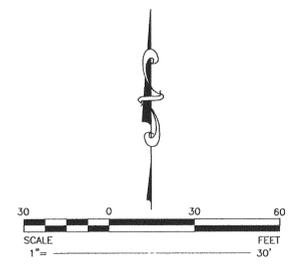

**COVENANTS OR RESTRICTIONS ARE UN-ALTERED**  
This Replat does not vacate the previous 'Plat of Record' governing the remainder of the subdivision, nor does it amend or remove any deed covenants or restrictions.

**UTILITY EASEMENTS**  
The utility easement shown on this plat is solely for the construction, reconstruction, inspection, maintenance and removal of underground utility lines and appurtenances by any public utility, including the City of Fort Worth. These public utility providers, including the City of Fort Worth, shall have the right to ingress and egress to the utility easement area for these purposes; however, except in the event of an emergency, all such access and construction activities shall be coordinated in advance with property owner. Public utility providers, including the City of Fort Worth, shall require each contractor conducting construction activities in the utility easement area to indemnify the property owner and its property manager to the same extent as the contractor is required to indemnify the City of Fort Worth and to name the property owner and its property manager as additional insured on all insurance policies required by the City of Fort Worth. The utility easement is subject to any and all encumbrances and zoning laws, regulations and ordinances that are existing as of the date of this plat.

**URBAN FORESTRY**  
Compliance with tree ordinance #18615-05-2009 will be required.

**PARKWAY PERMIT**  
Parkway improvements such as curb & gutter, pavement tie-in, drive approaches, sidewalks and drainage inlets may be required at time of building permit issuance via a parkway permit.

**CONSTRUCTION PROHIBITED OVER EASEMENTS**  
No permanent buildings or structures shall be constructed over any existing or platted water, sanitary sewer, drainage, gas, electric, cable or other utility easement of any type; however, property owner may construct or place fences, pavement, landscaping or other improvements on, in, or across the utility easement area so long as such improvements do not unreasonably endanger or interfere with the construction, efficiency, operation, repair or maintenance of the underground utility facilities. Property owner may also install private underground improvements in and across the Utility Easement area as long as these installations cross at a minimum of a 45 degree angle to existing utility lines and provide proper vertical separation from existing utility lines and appurtenances, such installations subject to the City of Fort Worth's standard encroachment review.
